# Cannington E. A. Has Lecture Given to Them

CANNINGTON, Sept. 27. (Star Correspondent)—The Bampton meeting of the Brethren Association of the Women's Ministry Society was held at the United Church with Mrs. J. C. West, of Thabo, as guest speaker. The meeting covered with music and the president, Miss L. Philip, giving the call to worship. "O Master, Let Me Walk With Thee" was sung and Mrs. Weston Griffin read the Scripture lesson. The devotion leader "Friends Forever" based on the verse "I give unto thee eternal life and they shall never perish. Neither shall any man pluck them out of my hand," was read by Mrs. John Bennett. Silent prayer for all Christians throughout all nations and for world peace was followed by prayer by Miss Philip which closed the service period.

The minutes were read and approved and several items of business transacted. It was decided to hold a pot luck supper in the church on Tuesday evening, Sept. 24th.

The executive were asked to convene at the home of the president on Thursday evening, Oct. 3, to make final arrangements for special group meetings in connection with the Kingdom of God Movement. Mrs. John Bennett was appointed delegate to attend the national rally in Wichita on Thursday, Sept. 26.

After the singing of "When I'm Freed We'll Sing in Jesus," Mrs. Philip spoke read a brief paper dealing with the Kingdom of God Movement and a vocal duet, "A Little Town in the Heart of the World," was contributed by Mrs. Carter and Mrs. Ryan.

The guest speaker, Mrs. West, was then called upon and in her own charming and interesting manner made Japanese life very real to her audience. Introducing her subject, Mrs. West described Japan briefly as a land which might be much with ease in Lake Superior. In spite of the fact that two-thirds of this tiny empire is mountainous, twenty million people inhabit it. The population of Tokyo alone is nearly half that of Canada. Occasional riots are inclined to laugh at Occidentals but the audience was reminded that the Japanese Emperor called to assist British Japan had a well established and cultured civilization. These nations date much further back and so they should command the respect of the Western world. The audience were taken in imagination to visit a typical Japanese home.

Many stories of the elaborate and intensely ceremony which a Japanese dinner necessitates have been given. Mrs. West, however, has reached Canadian audiences but more modest means than the picture Mrs. West drew of the old lady from rural Japan snuffing out in the center of a busy street in Tokyo and holding up traffic while they exchanged the Japanese custom of constant clanging of tram-car bells means nothing whatever to them and the traffic policemen have a real job on their hands preventing confusion. The incident of the Japanese civilisation demands a certain shedding up, but the speaker felt it would be a matter for regret if the very fine and very lovely courtesies of the East were sacrificed for the hurry which characterizes the West.

The youth of Japan are learning in their schools to dress like the foreigner and to sit on chairs. Modern theaters and churches are equipped with chairs and benches, practically impossible to sit on them as we do. Until quite recently Japanese made hats were very primitive, but the young people are very fond of good music and have taken to foreign music very keenly. Tokyo now boasts a Conservatory of Music and a very fine symphony orchestra.

Shoppers in this district have different remembering the Wednesday half holiday, but it was learned that conditions in Tokyo are a great deal worse. The situation is not observed except by the banks who are compelled to close because of the inability to carry out international business. However, factories are compelled to give their employees two holidays a month even at all factories close on the first and fifteenth. Departmental stores take three days, closing on the 10th and 20th, and so on.

It is impossible to know or guess the exact number of people who will be upon.

Speaking of their own work, Mrs. West said that their people were in one of the slums areas. A number of them were very poor and showed that on an average there were five people living in a room

house feet square. But the most part they made their meagre living piece by piece. It is rare and they cannot go out there is no need for that. Because of the recent poverty of the people, a great deal of relief work is necessary. For the medical clinics, schools, night schools, study, study rooms for the children.

In closing Mrs. West appealed to the ladies for greater interest in the work on the ground that the people at home are co-workers with the missionaries. Following this splendid picture of everyday Japanese life special prayer for missionaries and their work was offered by Mrs. Bennett and the meeting closed with a hymn and prayer. A social half-hour was enjoyed at the close when the ladies had the opportunity of meeting Mrs. West and thanking the many interest and kind words which she had brought with her.

## BOBBY THATCHER —

IF I'M AFRAID WE WON'T BE ABLE TO STAY LONGER THAN TOMORROW... WE KNOW OUR MONEY IS GONE AND...

BUT WHAT MAKES YOU SO SURE HE'LL GET HERE TODAY, MR. O'REILLY...

BECAUSE WHEN OLD JEFF RANDALL SETS A DAY TO PACK IN FOR SUPPLIES HE NEVER MISSES... WHY DON'T YOU TAKE THE TRAIL UP TO THE PASS? YOU'D LIKELY MEET HIM.

I SHOULD HAVE WARNED THAT LAD NOT TO GO BEYOND THE PASS BUT I GUESSED HE WONT...

FROM TOWN IT DIDN'T LOOK MORE'N A MILE BUT I'VE BEEN CLIMBING TWO HOURS...

PART OF IT'S WHITE AS SNOW... GUESS THAT'S A LITTLE... IF I WAS OVER ON THAT MESA I COULD SEE ALL OVER...

BOBBY LOOKED OUT OVER THE WASTES OF THE DESERTED JORNADA DEL DIABLO... EXTENDED TO THE SAW TOOTH FAR TO THE EASTWARD...

HE'S THE ONLY WHITE MAN THAT CROSSES THEM FLATS... LEARNED TO LIVE WITHOUT WATER LIKE A HORNE TOAD... A FEW HAVE TRIED TO FOLLOW HIM IN TO HELP ANYONE'S DIGGIN'S... HE ALWAYS COMES OUT BUT THEY DON'T...

IT WOULDN'T DISTURB THE BALANCE OF NATURE MUCH IF THE SKUNK BECAME EXTINCT.

LIFE MUST GO ON... BUT ON WHAT?

IRA FITTS

HE SAID IT'S 'DANGEROUS TRYIN' TO CROSS THIS CREEK AND NO WONDER... IT WOULDN'T BE SAFE FOR ME TO GO ANY FURTHER THAN THAT MESA...

THERE'S THE WIND PICKIN' UP SAND LIKE A DUSTY ROAD...

I'LL WATCH THAT AWHILE AND THEN GO BACK.

BETTER BE GETTIN' OUTA HERE BEFORE I GET MY EARS FULL.

GOSH! THAT WIND'S PICKIN' UP! I'M 'KIN' THE SAND STING.

GETTING SO THICK I CAN'T SEE THROUGH IT.

## The Liberal Platform

## DEVELOPMENT OF PRIMARY INDUSTRIES

The Liberal Party, by its policies, will continue to further the development of agriculture, lumbering, mining and fisheries by effecting REDUCTIONS IN THE COSTS OF PRODUCTION of Canada's basic products and by obtaining WIDER MARKETS therefore, by encouraging export trade, and by state assistance in the marketing of natural products.

### CONTROL OF CREDIT.

The Liberal Party believes that credit is a public matter, not of interest to bankers only, but of direct concern to the average citizen. It stands for the immediate establishment of a properly constituted NATIONAL CENTRAL BANK, to perform the functions of rediscount, and the control of currency issue, considered in terms of public need. A Central Bank is necessary to determine the supply of currency in relation to the domestic, social and industrial requirements of the Canadian people; and also to deal with problems of international commerce and exchange.

## CONTROL OF INVESTMENTS

The Liberal party believes the financial mismanagement of industry is largely responsible for many conditions obtaining today.

To prevent exploitation of the public through the sale of watered stocks and worthless securities, it believes AN INVESTMENT CONTROL BOARD should be established, with supervision of issues of securities by companies incorporated under federal charters.

## SAFEGUARDING OF NATIONAL RAILWAYS

The Liberal Party stands for the maintenance of the integrity of the Canadian National Railways as A PUBLICLY OWNED AND PUBLICLY CONTROLLED SERVICE.

DEMOCRATIZATION OF INDUSTRY.

The Liberal Party believes that **INDUSTRIAL RECONSTRUCTION** is the problem of the future. It will seek in industrial relations as opportunity offers, to give to workers and consumers a larger share in the Government of industry.

### A BALANCED BUDGET

The Liberal Party believes the aim of every government should be the balancing of its budget.

It would seek to effect that end, by RETRENCHMENT OF PUBLIC EXPENDITURES, by REDUCTION OF PRINCIPAL AND INTEREST ON THE PUBLIC DEBT by a REDUCTION IN TAXATION and by INCREASING REVENUES through the encouragement of trade.

- (1) Legislation permitting the executive to enact measures by order-in-council for peace, order and good government, and
- (2) legislation providing the executive with a "blank cheque" for expenditures of any kind.

### International Relations.

The Liberal Party believes that under the excuse of the present crisis, the rights of the individual have been violated. Liberalism stands, as always, for the British principle of FREE SPEECH and FREE ASSOCIATION, and at this end will repeal section 98 of the Criminal Code, and end the present practice of arbitrary deportation.

The Liberal Party will seek to further wherever possible those courses in international relations which make for PEACE and GOODWILL among nations, and promote friendly intercourse between them. It will seek to further the work of the League of Nations

### More Equitable Distribution of Wealth.

The Liberal Party stands for electoral laws which will ensure A TRUE PARLIAMENTARY REPRESENTATION of the Canadian people and such legislation as may help to REDUCE THE COST OF ELECTION CAMPAIGNS.

The Liberal Party recognizes that the problem of distribution has become more important than that of production, and believes that personality is more sacred than property. It will devote itself to finding ways and means of effecting a fair and just distribution of wealth with increasing regard to HUMAN NEED, to the furtherance of SOCIAL JUSTICE, and to the promotion of THE COMMON GOOD.

## The Liberal Party is Conceived in The Best Interests of The Country

1. It respects individual freedom, at the same time admitting the need for the reasonable regulation of the forces of production under parliamentary control—not through administrative orders which stifle the initiative of parliament.
2. It seeks to foster world trade through lower tariffs. No country in its dealings with other nations can expect to win the advantages and give nothing in return. Commerce is above all the fair exchange of merchandise and capital.
3. It is based on social justice and favours the greatest possible measure of social well-being.
4. The Liberal party is the result of long, serious study of the foremost pressing needs of this country—a study that permits the application, when the time is ripe, of reforms compatible with ordered development, progress and national safety.
5. The Liberal Party is the only political group in the country in whose ranks exist that loyalty and solidarity whereby, in the face of conflict and confusion, the members of the party are bound together by a common sentiment—experience, their actions are based on principles that are just and are founded on the basis of common sense.

J. P. Laughton, author of "The World of Glass," says, "Some people think they think about time all the time."

### Selassie Sends Men to Aussa

**ADDIS ABABA, Oct. 3.**—A government announcement said 100 houses at Adigrat and fifteen at Adowa, where Ethiopia crushed the Italians forty years ago, were destroyed. Casualties were unknown, the announcement said, but it was believed the Italians occupied the entire town of Adowa.

Fighting was reported under way near Adowa. The Reuter's correspondent said Italians were retreating from that section under cover of their aeroplanes.

Italian officials in Rome admitted an advance, but denied towns had been bombed. The Exchange Telegraph Agency in London reported 1,700 persons had been killed and wounded in the bombardment of Adowa.

The Ethiopian Government said women and children were killed in the bombardment, and a Red Cross hospital was made the target of bombs.

Ethiopians said they believed inhabitants were not warned of the attack, and that it was intended to invite reprisals on Italians in this country in an attempt to justify an Italian invasion.

The Government announced that battle is in progress in Agame province, between Eritrea and Jews.

New York, Oct. 3. — Rioting in New York tonight reflected the Italo-Ethiopian conflict in Africa. More than 1,200 extra police were in duty to prevent serious outbreaks. Almost simultaneous clashes between negroes and Italians occur-

Charles Linaus, 33, was arrested in a charge of rioting and carrying a dangerous weapon after being slung shot after he led a group of 60 or more negroes in Harlem into Italian shops and attempted to prevent negro customers from making purchases.

No serious injuries were reported but one policeman was treated at a hospital for a bruised hand, suffered when Linaus struck him with a pole on which the negro was waving a Ethiopian flag.

Negro street agitators quickly picked up the charge and exhorted Lenox Avenue crowds to "fight for Ethiopia and the colored race."

**Outbreak at School.**  
The other flare between negroes and Italians calling out police started among school children in Brooklyn yesterday when a negro

boy successfully fought an Italian youth. To-day, the Italian, aided by 12 of his fellows, caught the negro behind the school and was beating him when a teacher interfered. The Italians fled, leaving behind four loy-picks, half a billiard cue, four chunks of stovewood and a baseball bat.

About 1,000 each negro and Italian children attend the school. Word of the trouble spread rapidly and when school was ready to dismiss, a crowd of several hundred of the children's parents was milling in the streets.

Two hours later 50 policemen rescued employees of an Italian meat market in Harlem, beleaguered by 2,000 shouting persons.

The Italian butchers had armed themselves with cleavers and meat knives when negroes congregated in front of the market shouting: "Boycott the Wops! Don't trade with Eysitalians!"

# Toronto Man Speaker At Downeyville

Major, McKeown, of  
Toronto, Addressed  
Downeyville  
Audience in Interests of  
T. H. Stinson, K.C.

(Continued from the Conservative  
Association)

DOWNEYVILLE, Oct. 4.—In spite of the inclemency of the weather, a large crowd gathered in the parish hall here last evening to welcome T. H. Stinson, K.C., and to hear the famous speaker. After a brief introductory address by Capt. O. A. Anglin, of Lindsay, in which he referred to the high esteem in which Mr. Stinson is held throughout the length and breadth of the riding, the speaker, Mr. Georges McKeown, called upon the speaker of the evening, Major Walter McKeown of Toronto, whom he described as "one of our own Irish boys who did his bit overseas."

Major McKeown was accorded quite as warm a reception as he deserved and he commenced his address with the personal tribute to Mr. Stinson as a fellow barrister who is very highly regarded by the entire profession.

Pointing out that, ever since the close of the Great War, a trade war has been in progress among the nations of the world, the speaker declared that the same destructive tactics must be applied in both types of strife, and asserted that, for that reason, in the face of world-wide wars of higher and still higher tariffs, the British Government had been forced, in order to save our home industries from extermination, to take appropriate action along that line. They had been forced to remedy the conditions which grew up under Mr. Stinson's trade protection, which Canada had become the very variable dumping ground for foreign products, produced in many instances under standards of living much lower than our own. In addition the government had made reciprocal and mutually beneficial bargains with other nations, with results that became evident almost immediately in increased and properly directed trade.

Referring to the current Liberal speech that Mr. Bennett has not ended unemployment as he promised his audience that we have not, during the course of our lives, at least one province which we later discovered that we were not fully fitted due to circumstances entirely beyond our control and which we had never employed. He pointed out, however, that the government, under the circumstances has reduced unemployment to an extraordinary extent, and asserted that the weakness of opposition criticism lay in the fact that there are no sufficient figures available as to the actual extent of unemployment in Canada prior to July 28th, 1935. Doubling the mis-statements and personal abuse which he directed have induced Mackenzie King's speech as the last resort of a man who has nothing to offer the people, the speaker stated that, during a period of difficulty such as Canada, with the rest of the world has never known before, at the Liberal have done a job to indulge in obstructive tactics and destructive criticism.

However, he pointed out that things are improving, referring to the League of Nations report that Canada leads the civilized world the path to recovery, and telling his audience that one day last week the Post of Toronto had the largest volume of business of any day in its history. He alluded to this condition in the trend and other conceived policies of Premier Bennett.

ing his subject, and concluded with an impassioned plea to his audience to be fair and to accord sincere gratitude and common courtesy to a man who has literally won himself out of our debt in the past year, ardently laboring in their behalf.

"The way to do this is give Tom Stinson a warmer majority in the polling subdivision of Downeyville," was his parting admonition.

In a brief, thought-provoking address Mr. Stinson outlined the legislative mind, the government has meeting in the interests of the farmers, and pointed out the unfairness of current references to Mr. Bennett's personal situation. In a calm and deliberate manner he counseled his audience to vote as they really thought they should, and expressed his willingness to be fair.

He concluded his address in the same manner as he has for the past eleven years. If they would ask him to do so by their vote on Oct. 14th.

WEDDINGS

ELSTON—BURKE

LOCHLEN, Oct. 4.—A very pretty wedding was solemnized on Wednesday afternoon, Sept. 30th, at the home of Mr. and Mrs. Robt. Burke, of Lochlen, Ont., when their only daughter, Pearl Isabel, became the wife of Chester Alvin Blaine, son of Mr. and Mrs. Edward Blaine, of Lakeside Lodge, Hallowell, Ont.

The ceremony was performed under a beautiful array of pink and white flowers, and a white wedding, taking place in the presence of a fairly intimate Rev. R. K. Skene, of the Anglican Church, Stinson officiating.

The bride, who was given away by her father, looked lovely in a long dress of napping blue silk, edged, trimmed with silver color lace and flowers with a wreath of pink rose buds in her hair and carried a bouquet of pink gladioli and white asters with a spray of Scotch roses.

Miss Maria Estline, sister of the groom, acted as bridesmaid and carried a bouquet of pink roses and white asters, while Miss Burke, sister of the bride, was maid-of-honor. The bride was dressed in pink silk, with a wreath of pink roses and white asters, and carried a bouquet of pink gladioli and white asters.

The groom's gift to the bride was a most precious, to the bride a pair of ear-rings, to the maid-of-honor a bracelet, and to the best man a tie.

After the ceremony was over Mr. Robert Burke, cousin of the bride, took the bride away for a motor drive. After their return, a beautiful supper was served in the dining room which was decorated in pink and white. Miss Zina Skene and the Misses Harriett and Edie Baker were on the table.

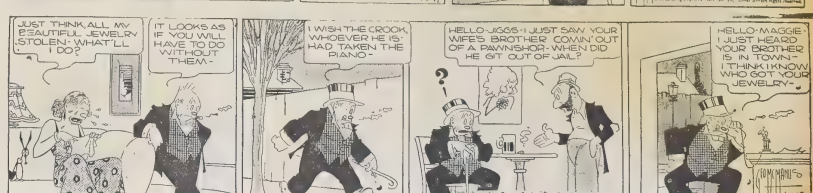

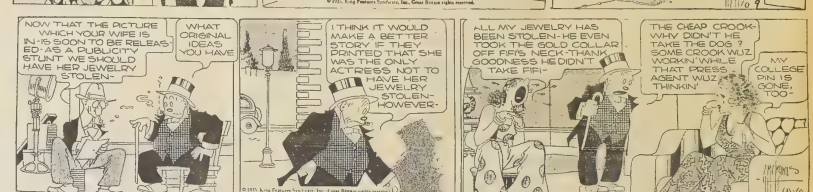

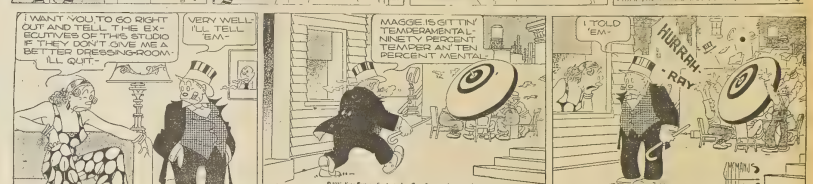

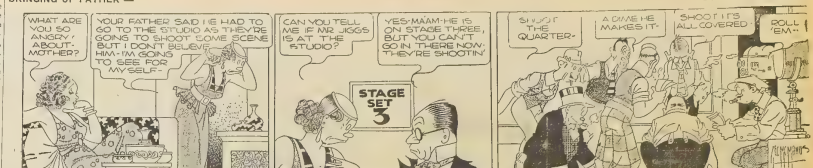

In the evening a reception was given by the groom's parents at their home with about one hundred and fifty guests present, where the feast was thoroughly enjoyed by Mr. Robt. McKeown and Mr. Bennett.

At midnight a lively supper of sandwiches, cake, cookies, etc., was served. During the evening the bride couple received a long distance message from Mr. Bennett.

The many useful and beautiful presents showed the high esteem in which the young couple were held by all who take in taking time in long and happy wedding life.

The combined production of all kinds of concentrated milk in Canada during August 1935 was 10,383,753 pounds as against 9,252,431 pounds in 1934. The statistics are based on returns from the 11 manufacturing plants in various parts of the country. ## LIBERALS SNEEP CANADA AS GOVERNMENT

### Bruce McNevin Victorious In Defeating T. H. Stinson By Less Than 100 Votes

Exciting Battle of Ballots Followed by Huge Crowds as Local Candidates Return Neck and Neck. McNevin Majority 65, Votes Polled: McNevin, 8,333 Stinson, 8,268; Falconer, 538.

Bruce McNevin, Liberal-Progressive candidate in Victoria and Haliburton, together with Liberal candidates across the Dominion tested victory last night after a closely fought battle in which the final results were not definitely ascertained until well on toward midnight. Tom Stinson, K.C. went down to defeat by the small majority of 65 and yet there is one poll, Haliburton, in favor from, but the total votes in this division would be too small to effect Mr. McNevin's close victory. Throughout the evening as the results came pouring in from the various polling subdivisions throughout the County intense interest was manifested by the huge crowds that followed the figures on the screens operated by The Post and The Watchman-Leader, and cheer after cheer burst for both candidates as one led by a few votes for a time and then the tide turned and the opposition took the lead. It was one of the most thrilling nights that Lindsay has witnessed for a long time. Mr. Falconer, the Reconstruction candidate was not a serious threat at any time during the evening, receiving in all only 538 votes. Mr. Falconer had the satisfaction however, of winning out in his home division and it is the belief of many that had he been organized at an earlier date and sufficiently maneuvered in the Counties that his showing would have been much larger.

The Town of Lindsay, a proverbial Tory centre, while giving the Conservative candidate a majority of 807, dropped a cog or two since the last Federal election when Mr. Stinson received a majority of 1237. This shows a decline in Tory values of 464 and it is in accordance with the swing toward Liberalism that swept the whole Dominion.

Although the figures are close and there may yet be a slight change in the final result, it was a glorious victory for the Liberal party in Victoria and Haliburton Counties and the winter candidate is to be congratulated upon his splendid achievement.

Following are the results by polling divisions:

Newly Elected Federal Representative of Victoria and Haliburton Counties.

### Farmers Being Victimized By Slick Poultry Racket

Operators Working In This Locality Take Cockerels in Exchange for Corn—Forget to Come Back

The Post has been informed of a racket that seems to be rampant in this locality. It is understood that several Victoria County farmers have been victimized to a considerable extent. According to The Post, a "Toronto note" has been received, indicating several local farmers' revolutionary with a proposition to the effect that they will replace cockerels with several fowls, or pullets about to lay. Several farmers have taken him on his proposition and as a further evidence of good faith the Toronto note has reported some of the farmers' remarks on this subject. One farmer has 100 cockerels to be replaced by pullets and has received nothing for his birds but the original deposit. There is no sign of the pullets which he was supposed to receive. Other farmers have been victimized similarly, but not to the same large extent.

A complaint was registered at the office of J. A. Anderson, K.C., Crown Attorney, by a farmer who had some cockerels, and he was informed that the birds were being sold to criminal courts in the market. It was explained by Mr. Anderson that a charge of false pretences can

be laid, and as to the future action, the criminal court could do nothing about it. An action could be taken in a civil court for damages.

It is felt that such publicity in newspaper columns will cause the promoters of the racket to be on their guard against prosecution at this nature.

### THE VANQUISHED

### Local Lady Succumbs To Injuries

Mrs. Phyllis Workman, 47, daughter of Mr. and Mrs. James Workman, of Wellington Street, Lindsay, died in the Memorial Hospital from injuries received when she was struck by a C.M.R. train at the new bridge, southeast of Lindsay, on Friday night last. Mrs. Workman had been in a serious condition since the accident and this hope was held out for her recovery. When interviewed as to the injuries received her strength rapidly faded and death finally came.

Mrs. Workman's neck was severely severed at the neck by the train and it was necessary to amputate the member. Dr. M. P. Workman was in charge. The train was called to the scene of the accident by a telephone call from the station. The train was stopped by the station master. The train was stopped by the station master. The train was stopped by the station master.

### Great Ovation For McNevin By Joyous Crowds as Victory Is Announced

Thousands Cheered Victor as Band Played and Lindsay Welcomed Bruce McNevin, Newly Elected M. P. for Victoria and Haliburton.

Traditional Tory Lindsay was taken over by enthusiastically cheering Grits Monday night when the returns came in showing a small majority for their standard-bearer, Bruce McNevin. The whole town rang with the shouts and cheers of the Liberals as they paraded through the streets of Lindsay till well past midnight.

At two o'clock this morning a victory celebration was held in various parts of the town but at two thirty all was quiet and the happy Liberals were in their homes enjoying the sleep of tired but happy humans. One of the greatest reversions ever given a victorious candidate was extended to Bruce McNevin when thousands upon thousands of citizens of towns and country came from as far away as London and Haliburton to cheer the victor in his triumphal parade.

Kent Street was the place upon to make several speeches on the way up Kent Street and when a truck a platform he obeyed the demands of the crowd with speeches of gratitude and joy in his victory.

As soon as he was definite that he had won the day, the cheer content perhaps in the whole Dominion, the new M.P. was taken to the top of the city on a big red truck. The victor was joined by his wife and close friend, William Norman, M.L.A., who climbed on the truck and cheered. The truck made its way down Kent St. and at the corner of York and Kent Street it was stopped by the singing crowd who called "speech," "speech." The cheers continued, and he had to stand, and addressed the huge gathering which stretched across the street and flooded the sidewalks. He expressed his sincere gratitude and joy at his success. The truck again proceeded on its way and again was stopped by a still larger crowd at the corner of Cumberland and Kent Streets. Another speech, at the corner of Cumberland and the Conservative candidate, was the next stop, and Mr. Stinson stood at the front of the truck and addressed the huge gathering. He took the saluting by the crowd and were addressed by the victor. All was merry with cheering and speech-making until another general exit was made. The Liberal campaigner made the destination and on their arrival there the victor was met by a large crowd of people who had gathered to see the victor. A peculiar feature of the entire celebration was the almost general lack of people in the early part of the celebration as to who would be the victor. The Liberal campaigner was not expected to be a formidable contender before the Liberal cohorts were sufficiently convinced of the success of the victory and then they started their victory march in earnest.

It was a big day. There has probably been no celebration to equal it in the history of Lindsay. The Home Week. From six o'clock on the roads and highways leading to

### Prospects Are Good For Fine Match

In one month more the Victoria County Players' Association holds its annual playing match on the farm of Frank Graham, Lot 34, about three miles northwest of Lindsay. Present indications are that one of the most successful seasons ever held in this section of the province and entries are expected to be far exceed any other held in the history of the local association.

The executive has worked hard to make this event an unequalled success and credit is due to them for the splendid arrangement that have been made. The committee in charge of the prize list has also done a splendid job and the ultimate list of prizes is bound to prove some exceptionally fine prizes.

After the various events have been run off the match will conclude with a huge banquet in the town hall, at which many prominent citizens will attend. A program of speeches and music will be presented as well as the ultimate list of prizes to the winners of the event.

### McNevin Plows A Worth While "Straight Furrow"

BILLY ENGLISH, popular South Ont farmer didn't think he could get away from his plowing long enough to go on Monday. Several prominent friends were to him for the purpose of giving him a lift to the polling station at McClelland's but he stated that he couldn't get away from work long enough. When Bruce McNevin, the Liberal farmer, told him to go to vote and while Mr. English was away to vote, Mr. McNevin plowed his field. According to present Liberalism, the new member showed a "straight furrow."

# Geo. Aldred Sentenced To Treasurer of Town Passes Kidnapping

Treasurer of Lindsay for the Past Fifteen Years, Death of Geo. Aldred Will Be Keenly Felt by Town Officials, and Citizens Generally.

After an illness of brief duration, death came to George G. Aldred, aged 60 years, on Oct. 25 (Special). Mr. Aldred was a well-known citizen and a treasurer of the town of Lindsay. He had been ill for some weeks but his devotion to duty kept him at work until Thursday when he was unable to leave his home. He was forced to lie in bed and since Thursday had become gradually weaker until death came around nine-thirty Sunday morning. A feeling of great loss has come over the civic officials of Lindsay and the employees of the town hall this morning were pale with the consciousness of the loss of a friend and co-worker.

Mr. Aldred was born in London, England, 60 years ago and at the age of 19 moved to Canada. He settled first in Ontario where he was employed with the Barmham Company later working on the Bay of Quinte Railway. After working in various parts of the country, particularly in Toronto, St. Catharines and in New Brunswick, Mr. Aldred came to Lindsay with his family. He received employment with W. H. Baker. It was in 1912 when Mr. Aldred moved to Lindsay from that time until 1920 he was employed with the late Mr. Baker.

In 1920 he took over the reins of the town hall and since that time he has been a most efficient and conscientious town treasurer. He was beloved by his friends, neighbors and co-workers. His death will be widely mourned. Town officials approached this morning were unanimous in stating that George Aldred was a splendid man and that his death is a real loss to the town. Besides his beloved wife, he was survived by two young daughters. The sons are Bert and Margaret. A brother, John, of Montreal, also survives. Mr. Aldred has no sisters.

## Origin of Hallowe'en

**LINKED WITH AGRICULTURE**  
Hallowe'en, to spite of its legendary aspects, may be said to have had an agricultural origin, and to the present day is associated with the fruits of the sea and particularly apples. There are reasons for this. In the Christian Church, Hallowe'en, or All Hallow's Eve, is the name given to the evening of the 31st of October, or the eve of Hallowe'en, or All Saints Day. Before the Christian era, however, the eve of the 31st of October was the occasion of harvest and other ceremonies in various countries, and the festivities which gradually gathered around the Christian Hallowe'en at a later date originated from the same part in countries under the sway of the Druid religion, chiefly Britain, also a few indoor and outdoor celebrations borrowed from the pagan Persians led to the games of Druid.

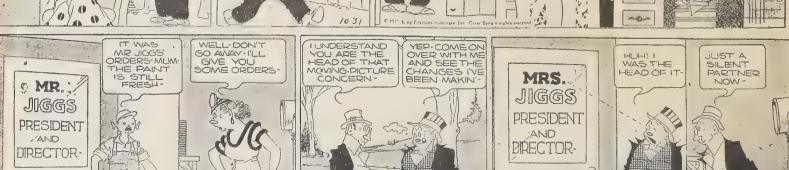

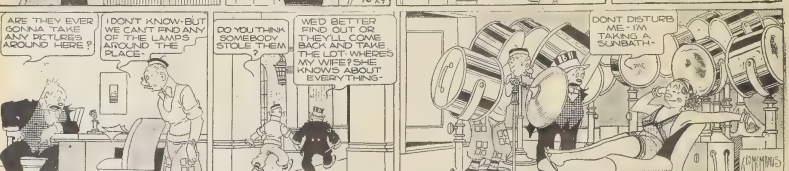

The two chief characteristics of ancient Hallowe'en were the use of bonfires and the belief that Hallowe'en was the only night of the year in which phantoms, evil spirits, and evil spirits were permitted to wander on earth. On the 31st of November the Druids held their great fall festival and lighted fires in honor of the deceased in thanksgiving for harvest. It was also a firm belief in the religions of the Druids that on the eve of the festival (Hallowe'en as we know it), Satan, lord of devils, ruled the earth; the wicked souls that within the past twelve months had been permitted to inhabit the bodies of animals. With regard to this belief, it is interesting to note that in parts of Ireland, the first of October was and even still is known as *Guthrie* (Guthrie), the night of the "ghosts." On or about the 1st of November also the Roman festival of *Samhain* was held. *Samhain* was the goddess of the fruit of the tree, hence the words *Samhain* and *Samhain* are of Irish and Pagan origin. At this Roman festival, music and games, and representing the white side of the fruit, played an important part, and thus originated the custom of roasting nuts and apple chalking, attempting to smother with the teeth the evil forces of the devil, and a superstition that it is a job of "wain" Kingdom." Mr. Duce stated that "if I was to be the King of all the devils on the 31st of October, I would make the first of October a day of the year in which many larger games of young folk have been celebrated since the first of October. These games on Hallowe'en often result in injury to persons and even death, so to properly, their packs are the survival of the fittest part of the Pagan festival.

# BABY HAS WILD RIDE ON ANTLETS OF A DEER

Friendly Animal Licks

## Threads Give Way

HARTSHORN HILLS, B.C., Oct. 26.—  
—Branley Albert, 12-month-old son of a trilled deer was captured today on the antlers of a deer.

When the threads of a sweater by which he was caught gave way, Branley and his five-year-old sister Mary were playing together on their home when the buck deer stepped into the garden, wandered up to the children and lifted the baby's face. Branley was frightened and raised his arms to protect his face and his red wool sweater became entangled with the buck's antlers.

The deer was not afraid. Mary called afterward. "He came up to me and lifted Branley from his feet. I didn't like it and cried. Then the deer ran away with him."

Cries of the children brought Mr. Hubert to the deer in time to see the antlers of the buck deer top speed, swinging on the deer's head. The deer was seen in the garden, 100 yards away.

Her cousin brought together to the deer and they followed the animal's tracks to where the creek is spanned by a log 30 feet long and 20 feet above the shallow water.

The deer had evidently dashed wildly across the log. The amazed "wreckers" examined the scene for signs of the child and a baby cry from among nearby trees drew their attention. Branley was discovered among the trees, unharmed. The veterinarian deer had vanished.
